PROFESSOR CHANDLER. The Board of Estimate and Apportionment held a special meeting yesterday to consider the resolu-tion offered by the Mayor at Saturday's meeting to transfer \$21,067 43, the balance of appropriations for the Health Department for 1872 and 1873, to fill in the sunken lots on the Harlem Flats, under the direction of the Board of Health. There were present besides the embers of the Board, Gen. Porter, Commissioner of Public Works, President Chandler of the Board of Health, Commissioner Porter of the Second District Court-house

Aldermen Morris, Simonson, and McCarthy.

When the resolution giving the Board of Health
bower to fill in the lots was called up, Controller Green said that he supposed the Board had abandoned the idea of passing the resolution. There was no balance that could be transferred for this purpose. There were claims against these balances that must be paid, and it would be unwise to use this money and when claims were presented to have no funds where

rith to meet them. After considerable desultory discussion, the Controller said that he had asked that this resolution lie over to Tuesday in order that he might be better prepared to dis-He knew the ground which it was proposed to fill in, had often traversed it in former years, and had visited it on Saturday last. He recognized the same unells which had been familiar in that quarter at any time during the past ten years. The Board of Health had taken hold of the matter with great zeal. A map of the city was procured, and the Controller pointed out on the source of the more objectionable smells, be, he said, was caused by the refuse from the brewery in Ninth-ave., spreading over a large area. The sewer at-rendering establishment, causing another bad smell. plainly distinguishable. Still another was caused by the ngaged in filling in a portion of the property in the senity. He had analyzed the resolution offered on Satralay, and had prepared a map of the district proposed of be filled in. This comprised only a very mall part of the area which should be filled a lif the unisance complained of was to be bated. To fill in a small portion and leave the rest unmeded would be a useless expenditure and accomplish occord. A very large portion of the more type of the property complish. to be filled in This comprised only a very small part of the area which should be filled in if the unisance complained of was to be abated. To fill in a small portion and leave the rest unitouched would be a useless expenditure and accomplish no good. A very large portion of the property comprised within the Flats was owned by private persons. This should not be passed over. The owners should be compelled to fill in the lots. The resolution of the Board of Health was adopted on June 29. The first he heard of it was no Saturday, when it was presented to the Board, 11 days after it was adopted. Surely there could not be so much necessity for immediate action. Some of the private owners of property had been stimulated to this work of filling in, and the work was going on rapidly. The filling in of Lexington-ave, was already in progress under contract within two blocks of the sunken lots proposed to be covered with earth. The contracter would probably continue his work if the Commissioner of Public Works desired it. The Controller was opposed to the resolution unless it could be shown that there was an imperious necessity for it. The Commissioner of Public Works, he said, had already advertised for proposals for filling in part of this very territory. The plea was advanced that this work must be done at once. But under the provisions of the charter it would have to be done by contract if given to the Board of Health, and the Board would be obliged to advertise for proposals. He desired to avoid confusion as far as posable. There was a large hole partnally filled with rubbish and starant water. This was made by a sub-contractor on the Fourth-ave, Improvement, who found good sand there, and the city was now desired to fill the fole. They should proceed against the contractors. Jones & MeQuade, the contractors whose work was now declared to be defective, had been informed by him of this fact, 15 months as a large hole partnally filled with rubbish and starant water. This was made to the work was done in a proper manne

said that it would not. He added that there is an inlet which allows time water to back up to Lexington-ave. This is owned by the city, but there are lands on either side owned by private persons. It was desirable to fall this in. It was liable to cause an outbreak of disease at any time. The Controller wished to know if, in the inlet referred to, the tide did not ebb and flow daily, and suggested that, if this were so, the inlet would not carry a smell, and could not be productive of disease. He was

THE DRAMATIC AND LITERARY PROFESSIONS-FEATURES OF THE ORGANIZATION.

The Figaro Dramatic and Literary Club, a new organization established under the anspices of the Figure Dramatic Association, held its first meeting at the club-house in West Twenty-seventh-st, yesterday afternoon. The purpose of this club is thus given in the introduction to the by-laws, which were adopted vester day: "To provide a genteel and refined place of resort and social intercourse for both ladies and gentlemen of education and culture, particularly for those of the dramatic, musical, art, journalistic, literary, and kindred professions, where they may pass a social hour, meet and confer with friends, transact business, receive their letters and conduct their correspondence, and above all secure engagements, and make contracts with managers

The Figure Dramatic Association is a joint stock or canization, with a capital of \$10,000 represented by forty shares of \$250 each. This Association has adranced the money for furnishing the clut-house, and controls the management of the dramatic and literary bureau connected with the club; it is this Association also which is to receive all the profits accruing from the enterprise. The principal offices can only be filled by stockholders, among whom are George A. Brandreth Charles Pratt, D. R. Doty, J. R. Baker, and E. C. Delmar. It is claimed by these gentlemen that here gagements they have been treated like servants at an infelligence office and compelled to submit to insults from atic agents. In this club the manager of the Burean takes charge of all negotiations which are to be concluded free of charge to all members of the club, ladies

and gentlemen able, who pay their annual dues of \$20. these members-about 300 having previously signed the roll-was held in the Jury Commissioners, under an unconstitutional act. The ladies' parlor of the club-house at 3 o'clock yesterday Charles Gaylor presided, and Mr. Doty acted as Secretary. Among the ladies present were Miss Ada Gray, Mrs. Mary Stewart Nevison, Mrs. E. Forrester, Miss Marks Decker, Mrs. M. Van Zandt, Miss Hattle Henderson, Miss Emily Proudfoot, Mrs. Van Cott, and some 20 otters. Among the genitemen present were Sherby Emith, J. J. McCloskey, Henry Vanghan, George Davenport, J. J. Waliner, Chandos Fulton, Francis Gaylor, F. W. Carris, George Maddox, William Marray Leffingwell, Charles Watkins, Henry Clifton, and M. B. Sayder, Mr. Gaylor explained the object of the meeting, and congratulated the profession at having at last an institution where never sand therapy genitemen could meet their employers and conclude contracts without the interference of middensen. It was also stated that the business interests of missic trackers who become members of the club would be promoted. The hy-laws were then read and adopted. They contain three dissinctive features: tary. Among the indies present were Miss Ada Gray,

were then read and adopted. They contain three dismostive features:

First: That engagements are procured for members of
the club without commissions.

Second: A relief fund. The club will loan a sum of
money not higher than \$20, without security, to any
members in qued.

Third: On the death of a member cach member is
taxed \$1 to defray funeral expenses, the balance to be
paid to the family of the decreased.

A committee for nursing the lick, composed of ladies
and gentlemen, is also provided for. Ladies belonging to
the literary profession only pay \$12 per annum instead
of \$20 paid by other members.

The election of permanent officers was postponed for
the present. It is understood that the position of President of the club has been offered to John Brougham and
the place of Treasurer to Geo. A Brandreth.

The club-house is a three-story and basement house on
West Twenty-seventh-st. In the basement is a bilitardtoom and gentlemen's café. The first floor is divided into

a ladies' parior, ladies' lunch-room, and gentiemen's parior. The second floor contains the business office, the dramatic and literary bureau, a reading-room, and a private office for theatrical managers. The third floor is set apart for the use of club members who desire to have their sleeping rooms in the club-house. Gentlemen are not permit'ed to enter the ladies' parlors without invitation, except at the regular club meetings, when ladies exercise the right to vote in the same manner as gentlemen.

BROOKLYN BOARD OF ALDERMEN. COMMUNICATION FROM MAYOR HUNTER IN REGARD

The Brooklyn Board of Aldermen received

the following communication from Mayor Hunterlyester-day, and referred it to the Committee on Water and

Drainage:

Gentlemen: In a close personal examination of the subject of ample water supply for this city, I am convinced that the proper enlargement of the distributing reservoir at Ridgewood demands early and prompt attention. The building of an additional basin of ten or eleven acres, on ground now owned by the city, should, in my opinion, be commenced without delay. As our whole supply of water must be forced by pumping to these basins, and as the present holding capacity is sufficient for about five days, it will be seen that, in ease of accident to either conduit or pumping arrangement from any of the different causes to which they are daily and hourly llable, the city would be left destitute of water before the necessary repairs could be made. A sufficient supply for 10 or 12 days at least should be held at the distributing point. The importance of increased capacity to this reservoir, its present inability to meet the possible demands upon it, together with the entire feasibility of the plan of enlargement at a moderate cost, will, I sincerely trust, commend the subject to your prompt and careful consideration.

A communication was also received from the Mayor vetoing the resolution providing that the salaries of the

vetoing the resolution providing that the salaries of the on be increased \$100 each, on the ground that there is no money applicable to the purpose. The Board adjourned until 2 p. m. on Thursday, when they will probaby receive a nomination from the Mayor of a candidate for Collector of Taxes and Assessments in place of Lemuel Burrows (Eep.), whose renomination was rejected. It is believed that City Assessor William A. Furey (Dem.) will be the nominee, but ex-Assemblyman Dominick H. Roene (Dem.), now Secretary of the Board of Assessors,

THE BROOKLYN POLICE DEPARTMENT. A LECTER OF INQUIRY FROM THE COMMISSIONERS TO THE SUPERINTENDENT-POSSIBLE REMOVAL

The following letter from the new Demoratic Commissioners of the Brooklyn Police Department

to Superintendent Folk, a Republican, was received by the latter yesterday afternoon:

Sir: You are hereby ordered and required to immediately forward to this Board a detailed report of all action taken by you toward securing the arrest of the persons engaged in the perpertation of the following crimes, to wit: First, the murder of one Hartigan in Furmanest. City of Brooklyn: second, the attempt to rob the Long Island Savings Eank in this city: third, the robbery of Mr. Heaney, the pawnhyoker, of Atlanticave; fourth, the murderous assault committed on Mr. Shute and the attempted robbery of his residence; fifth, the full particulars of the arrest of one Wm. H. Nevins and the name of the magistrate before whom he was arraigned. You are also ordered to report to this Board the number of robberies committed since June 1, 1875, and the precincts in which they took place, the amount of property taken and the amount recovered by the police, the number of persons arrested charced with stealing and the names of the officers who made the arrests.

This is believed to be preliminary to charges about to

This is believed to be preliminary to charges about to be made, it is said, to secure the removal of Superintend-ent Folk, as the charter provides that no officer of the force shall be removed unless written charges shall have been presented and proved against him, and the new Board is desirons of appointing a Democratic Superin-tendent. Ex-Chief Campbell is considered to be the favorite candidate.

WHAT WILL HE DO WITH IT !- REPORTS CONCERN-ING THE GREAT IRON BUILDING AT FOURTH AVE, AND THIRTY-THIRD-ST.-MR. STEWART AND OTHERS DENY THE CURRENT STORIES.

Rumors having been circulated relative to the disposition to be made of the large building at Fourthave, and Thirty-third-st., built by A. T. Stewart, and of the ground in the vicinity, inquiries have been made of those most interested in the matter. Mr. Stewart said that he had seen some of the statements that had been published, but had not authorized any of them either personally or through any one. He was not in the habit of telling what he intended to do, but usually acted first and then spoke of it afterward. He did not in end at present to say what he would do with the building on Fourth-ave., nor could any one else supply the informa-

The building userf did not present any unusual signs of activity on Saturday. The exterior had been recently painted and looked bright, and a few workmen were engaged on the interior. No evidence was apparent of a transformation of the interior of the building for hetel by 52 men, Capt. R. S. Orsez Inspector. The day was uses. None of the workmen appeared to know of any contemplated change, and the person who had charge of the building said that he had received no orders or 300 yards, and 400 yards. All the men shot at the first contemplated change, and the person who had charge of the building said that he had received no orders or knew of any being issued that would lead him to believe two ranges, but only those who made a total of 25 or over that there was any intention of making a hotel out of
the structure. He had seen the published stories, but were allowed to shoot at the longer ranges. Five shots

The resolution was then voted on and carried, the Mayor, Presidents Wheeler and Lewis voting in the affirmative, and the Controller in the negative.

President Lewis offered a resolution providing for the issuing of \$250,000 Croton water-main stock. The Controller wished to have the President of the fourth of the resolution and the resolution. The controller wished to have the President of the fourth of the resolution of \$250,000 Croton water-main stock. The Controller wished to have the President of the fourth of the resolution of \$250,000 Croton water-main stock. The Controller wished to have the President of the fourth of the resolution of the President Lewis declined to do so, as it was set forth in the resolution. The courmination of Gen. Perter, asking for the issue of stock to provide for placing Croton mains on Blackwell's Island, and at high-water elevations, was read. The law under which the Controller was authorized to borrow \$750,000 was also read. The Controller said that the resolution was utterly libegal. After considerated discussion it was referred to the Corporation Counsel for his opinion.

ARRIVAL OF THE MARY CHILTON.

The schooner Mary Chilton arrived at this port yesterday. This vessel left this city for St. Audrews Island on March 30. While Capt. Sypperik, her commander, was on shore, the mate and crew of the schooner took advantage of his absence to sail away the vessel, after purioding a large quantity of rubber, shells, provisions, the chronometer, etc. The robbers finally ran the vessel aground. They were captured and and to this city some time since, and put in the custody of United States Marshal Flake. In the mean time D. de Catro & Co. of this city, the owners of the Mary Chillton, sent Capt. C. P. Marsden to St. Andrews to take command of the vessel and bring her to this port. Capt. M. riden left this city on June 7. He arrived at Havana on the followthis city on June 7. He arrived a. Havana on the following Sunday, leaving that place on June 17 for Pinar del Rio, whither the vessel had beca taken. Perc Capt. Marsden assumed command and received the vessel from the Spanish marine authorities on the afterneon of June 18. He suited for Havana the following day, arriving at that place on June 22. After a great deal of difficulty, the vessel started for this port on July 1.

TRIAL OF PATRICK KEHOE FOR WIFE-MURDER. The case of Patrick Kehoe, a blacksmith, charged with the murder of his wife, Catharine, was called in the Hudson County Court of Oyer and Tectainer mour, the prisoner's counsel, expressed a desire to retract the former plea of not guilty and substitute a plea in A meeting of such members of the 9th Regiment, N. yesterday. After the penel had been called, Mr. Sey-The reason for the application was that Kehoe was taken into court and required to plead to an indictment while under doress, before the Coroner's purpose of taking steps toward the organization of a jury had concluded its investigation. The Court refused to grant the application. Mr. Seymour then challenged the jury, on the ground that the panel was drawn by the Court reserved decision upon the challenges. The District-Aftorney read the indictment, which charges Kehoe with leading his wife, at their home in Third-st., Jersey City, on May 21, in such a manner as to cause her death. The only winess of the fatal assault is the prisoner's son, a loy 10 years of age, who testified before the Coroner's jury that his father came home drank that night, and kieked his mother on the head. The case will be continued to-day.

ATTEMPTED EURGLARY IN BROADWAY.

An attempt was made by burglars yesterday marning to rob the store of Thomas F. Hayes, at No. 789 Broadway. The rear of the store joins the rear of No. 77 University place, the ground floor of which is used as a liquer store. The burglars ferced an entrance into the saloon and passed up-stairs to the roof. The third-story windows of the building occupied by Mr. Hays are on a level with the roof of No. 77 University place, and one of these the burglars opened with a jimmy. The burglar alarm attached to the window sounded and was heard by the officer on duty, who called one of his companions and entered the building. When they arrived at the window by which the burglars had intended to enter, they found that the theves had fled, leaving behind them two bags and a number of burglars' tools.

At a circus, while the rope-walker was going through his performance, a boy about 12 years old turned to an acquaintance of the same age and remarked: "Tom, don't you wish you could do that?" 'Yes, I do," sadly replied Tom; "but my folks make me go to school, and are determined that I shan't never be nobody?"

A DAY'S POSTPONEMENT AT CAPE MAY. THE YACHTS START OUT FOR THE RACE-THE FALL OF THE WIND AND THE RECALL OF THE YACHTS -POSTPONED TILL TUESDAY AND WEDNESDAY-A STEAM YACHT RACE THURSDAY, IF THERE ARE THREE ENTRIES.

FROM A SPECIAL CORRESPONDENT OF THE TRIBUNE. CAPE MAY, July 12 .- All the people at this place were astir at 5 a. m. to-day, and were soon flocking to the beach. The yachting fleet lay at anchor off the hotel, and the Plymouth Rock and a number of steam-tugs, decorated with flags, rolled in the ground swell just beyond the breakers. The morning was cloudy and a very light wind blew from the east. The prospect did not seem favorable for an exciting race. By 10 o'clock not seem lavorable for an exemplace, numerous small boats were carrying persons to the different yachts and tugs, presenting an animated and unusual appearance in front of the beach. The President, Secretary Borie, and Gov. Hartranft went on board the revenue vessel Hamilton and started for Long Branch, in respons to a dispatch containing the gratifying intelligence that the President had become a grandfather. As the hour approached for the starting of the yachts, wind increased a trifle, but soon fell off. The yachts that were prepared to start as follows: Schooners Mohawk, Reachute, Madeline, Rambler, Dreadsaught, Idler, Eva, Sunshine, Creely, and Vesper; sloops Vindex, Kaiser Wilhelm, and Sadie. The ourse was to be from a line drawn from a stake-boat off Eph Shoal and the judges' boat, the Tallapoosa, to the Five Fathom Lightship, leaving it on the port hand; thence to and around a stake-boat, three miles distant to the north-east: thence to the starting point, a distance of about 40 miles. The race was to be sailed with time allowance, and the yachts to come home within eight

went over the line at 11:05 a, m., with the Dreadmanght in her wake. They both carried fore and mainsails, fore and maintopsails, jib and flying jib. There was barely enough wind to carry them ahead against the flood tide which was then setting in strong. The little Sadie got close in shore and crossed two minutes later, followed closely by the Kaiser Wilhelm. There was a dead calm, and the vessels that had crossed were carried back by the tide. The rest of the fleet lay becalmed. Meanwhile the time in which the vessels were required to cross after to Superintendent Folk, a Republican, was received by the firing of the gun had elapsed, and the judges declared that a new start should be made in fairness to the other crafts. The Rambier had managed to work to the wind-

Rain fell lightly from 1 to 2:30 p. m. At 3 p. m. there were no signs of a breeze. The members of the Regatta Committee held a consultation with Vice-Commodore Garner on board the Mohawk, and it was finally signaled to the fleet that there would be no race to-day. This was a great disappointment to many persons who had arrived on special trains from Philadelphia and other places to witness the race, and who had arranged to return home to-night. The float arrangements were that the race of schooners and shoops set down for to-day or time allowance should take place to-morrow if the wind should favor, and the great sweepstakes race should occur on Wednesday. The Committee are very reticent about the steam yacht race, which would naturally be postponed until Thursday, but they say that it will take place if three steam yachts shall report on the morning of that day. Tacy do not seem to be sangaine, however, of such a contest. It is provided that, should a caim prevail to morrow and prevent the race on time allowance, the races for sweepstakes and on time allowance shall both take place in Wednesday.

Meetings will be held at the armory every Monday even-ing by the Inspector until the team is selected.

TROTTING AT FLEETWOOD PARK. THE TWO-FORTY RACE WON BY LADY PFIFER-

BELLE RAY TAKES THE SWEEPSTAKES. Two races were trotted at Fleetwood Driving Park yesterday afternoon. The attendance was small, and the betting without spirit, although the trotting was fair. The first race was for a purse of \$100; \$60 to the first, \$30 to the second, and \$10 to the third horse; mile heats, best three in five, in harness; 2:40 class, Eight horses started, Lady Püfer being the favorite in

the judges gave the word regardless of the positions of the horses. Lady Pfifer was first, Kittie Allen second, Creedmoor third, and Jim fourth. These horses maintained their relative positions until they entered on the home stretch. Lady Pfifer took the heat in 2:38¹2; Kitty Alien second, and Jim third. Adel and Carrie Meyers had lost second, and Jim third. Adel and Carrie Meyers had lost their distance before they had reached the half-mile post, and recovered nothing. Hardroad, who cast a shoe, on the first quarter saved his distance by running an eighth of a mile, but the judges sent him to the stables with

The second race, for a sweepstakes of \$300, mile heats, best three in five, was trotted by Thorn's Belle Ray and Henry Williams's Major Pulse. Belle Ray was the favorite in the pools at \$10 to \$7. Major Pulse won the first and third heats in 2:5042 and 2:44. Belle Ray won the second, fourth, and fifth heats and the race in 2:454, 2:4142, and 2:4742.

POOLS ON THE LONG BRANCH RACES. M'GRATH'S ENTRIES THE FAVORITES FOR THE OCEAN HOTEL STAKES-SEARCHER FAVORED FOR THE

ONE-MILE DASH. Pool selling on the Long Branch races was not so lively last evening as during last week. The usual umber of persons was present at the pool rooms, but first choices in pools or in choice of races were not high, auction pools were the Ocean Hotel Stakes, while at the Turf Exchange and at Thomas's Exchange all the horses in this race except McGrath's entries in most pools were placed in the field against McGrath in the proportion of \$50 for McGrath to \$17 for the field. A few auction pools only were sold on the mile heats in any of the pool-rooms and not many French mutual pools. At Johnson's, where most of the latter were sold, the following tickets were taken: In the mile heats, Scratch, 30: Bob Wooley, 24: Vandalite, 16: Mary Long, 4: Corney, 10, and Hoaxer, 1. In the one-mile dash, Searcher, 16; Cariboo, 6; Inspiration, 6; Lelaps, 1; Vernango, 2. In the hurdle race, Deadhead, 5; Di-avolo, 20; Trouble, 32; Risk, 6; Minnie Me, 8. The fol-

The Atlantic and St. Louis Base Ball Club played a match game on the Union Grounds yesterday. This is the first appearance in this city of the club that interrupted the victorious career of the Bostons this year by defeating them at St. Louis. About 2,000 spectators gathered on the grounds. The play on both sides was exceedingly fine. The Atlantics made two runs in the first inning, and up to the fourth inning the game remained; won the game by the following score;

To-day the Mutual Club play the St. Louis

ERIE INTERESTS.

THE ELECTION TO-DAY. STRENGTH OF THE GERMAN ELEMENT-PLACES ON THE TICKET TO BE GIVEN IT-ADDRESS BY JOHN

LIVINGSTON ON THE MANAGEMENT OF THE COMPANY. The Eric election will take place to-day at

the offices of the Company in Duane-st. The remarkable amount of stock registered on the books of the Company

in the name of several German banking firms in this let referred to, the tide did not ebb and flow daily, and suggested that, if this were so, the hilet would not carry a smell, and could not be productive of disease. He was willing to have the streets in that vicinity and the sunken bets filled up, but he wanted it done in a legal way. The minority of the Board of Aldermen were willing to have the work done by contract, but the majority differed with them, and desired to have it done by day's differed with them, and desired to have it done by day's work.

In the lade of not ebb and flow daily, and some conjecture as to the course which there firms intend to pursue the building going to run through neglect and rust.

Yesterday one of Liverpool, brought 72 cabin and 225 steerage passenge active directors said that the ticket to be presented about 500 Mormon immigrants. the active directors said that the ticket to be presented would not be made up until to-day, in order to enable the German interest to be represented in the new Board. It is proposed to place at the service of this interest five or eight places on the ticket if they should be desired. If not the present Board will be turned if the \$26,900,000 of proxies which the managers hold, will accomplish this result. An advertisement of a meeting of the Eric shareholders to be held at Delmonico's, in Beaver-st., at 4 p m., signed by the "London Protection Committee," brought together about 25 persons to consider the question of the election to-day. John Livingston took the chair and said that the meeting had been called by the "London Protection Committee" to consider the condition of their property, the course to be pursued at the election to-day, and means for future relief. He pro-ceeded to review the history of the Erie administration from July 9, 1872, when Peter H. Watson assumed the Presidency, up to the present time. He dwelt upon the acquisition of Erie by Bischoffsheim, Goldschmidt, the largest owners of the Atlantic and Great Western, whose only motive was to benefit the latter at the expense of the former. They did not own a share of Eric, Lat secured control through stock intrusted to them by genuine shareholders. The result has cen the reduction of Eric to the condition in which it is found to-day. He compared the Gould and the "reform" administrations, and said that the obligations of the Company during the three years ending March 11. 1875, increased much more than for the three years preceding the displacement of the Gould management.
Millions were squandered by the Watson administration.
The report filed with the State Engineer for the year
ending Sept. 30, 1872, showed that the aggregate of the
funded and floating debt was at that date \$28,912,301-26,
while the report filed by President Jewett with that
officer, for the year ending Sept. 30, 1874, shows
the debt to have been at that date \$48,309,017-34,
an increase for the two years of \$19,306,716-08.
Still worse was President Jewet's report of May 15,1875,
which stated that the bonded debt existing at that time
was \$54,394,100. The bonded and floating debt is now
\$59,276,181-78, being an excess of \$30,363,800-52 over
the total bonded and floating debts as reported Sept. 30,
1872. There was nothing to show for this, said Mr.
11yingston except some valueless coal lambs on which
the Effe managers could not raise \$500,000. A
great deal of this money was traccable to
fishedisheim & Goldschmidt. The road was not
in as good condition as when Jay Gould
left H. The concern was governed by the attorney of
Bischoffsheim & Goldschmidt, who was the moving split
throughout. The epeaker cited an event at the close of
Mr. Watson's administration, when the "stockholiers" 1875, increased much more than for the three years preleft it. The concern was governed by the afterney of Bischoffsheim & Goldichmidt, who was the moving split throughout. The speaker cited an even at the close of Mr. Watson's administration, when the "stockholders rainfed the action of the directors." The stockholders present were the attorney in question, a Mr. Richards, who owned loo shares: Mr. Hotchkiss of Binghamton, who, owned one share, and himself (Mr. Livingston), who owned five sharee. While Mr. Livingston, was at lunch a series of residious were adopted, railfying the acts of the directors. This attorney represented all interests, and was alike counselor, plaintiff and defendant, which was absurd. Mr. Livingston advised all to be present at the election to-day, to see that none but actual stock was voted upon. Much stock was registered in manes of persons who were not authorized to vote thereon. While it was impracticable to effect any results at the election to-day, yet it would be his daity to see that only genatine stock was voted upon.

A Mr. Rurgles made a statement that he did not see

would be mis duly to see that only gename stock was voted apon.

A.Mr. Ruggles made a statement that he did not see that the meeting could accomplish anything but talk. After an interval of silence some one proposed a resolu-tion of thanks to Mr. Livingston, which was adopted by the persons present, and the meeting then adjourned.

ACTION OF BRITISH BONDHOLDERS. TERMS UPON WHICH SIR EDWARD WAIKINS AC-CEPTS THE CHAIRMANSHIP OF THE BRITISH COM-MITTEE.

LONDON, Monday, July 12, 1875. Sir Edward Watkins has accepted the Chairmanship of the British Committee of Eric Bondholders, on the condition that all interested persons support his appointment.

An elderly gentleman, returning home from church, began to extel the meths of the sermon to his son. Said he: "Jack, I have heard one of the most de-lightful sermons ever delivered before a Christian so-ciety. It carried me to the gate of heaven." "Why didn't you design in?" replied Jack; "You will never have another such chance."

THE INSURRECTION IN HERZEGOVINA. FALSE REPORTS CIRCULATED REGARDING THE PUR-POSES OF THE TURKS-FLIGHT OF THE INHABI-

LONDON, Tuesday, July 13-4 a.m. The Standard publishes advices from Zara, the capital of Dalmatia, which represent that Pan-slavic emissaries spread reports among the Herze-govinians that the Turks intended to extirpate the Christians. These falsehoods caused the insurrection, which is taking great dimensions. Masses of insurgents surround the towns of Gasko, Nevesini, and Stolatz. Six hundred familles have fled into Croatia and Servia, and twelve hundred have arrived in Dalmatia at different points along the frontier.

THE WRECK OF THE SCHILLER.

SEARCH FOR TREASURES, LONDON, Tuesday, July 13-5 a. m. Divers have been searching for the treasure which was on board the steamer Schiller. For a month previous the weather prevented operations; but last week there were favorable days, during which repeated descents were made. The position of the wreck is little changed, and there is reason to believe that the treasure will be recovered.

THE BROOKLYN ELEVATED RAILROAD. The Special Committee of the Brooklyn

Aldermen appointed to confer with the D rectors of the Elevated Railway Company relative to its proposed change of route gave a third hearing to interested property-owners yesterday. Gen. Philip 8. terested property-owners yesterday. Gen. Philip 8. Crooke, as counsel for a widow who owns three lots on Myrtle-aye, made a long argument against constructing the road in that thoroughfare. He contended that it would practically be a conflication of the street. The streets of Brookiyn, he said, were owned by the property-owners, and were not public property as in New-York, An elevated railroad would be a nuisance, and the Company would be liable to the property-owners for damages. Ex-Mayor Booth and others also opposed the selection of Myrtheave. President Burtls of the Italiway Company made a speech in answer to the remonstrants. He argued that the road would be a public benefit and would enhance the value of private property. Another meeting will be held to-morrow evening.
